1. Purpose, Scope and Principles

Purpose. This document shows how Luxe by Madiha is organised: who reports to whom, what each position is responsible for, how much each position may approve, and how decisions and information move between teams.

Scope. It covers all 11 positions in the company structure and applies to the owner, employees, part-time staff, interns and contractors who fill them.

Guiding principles

- **One manager per person:** everyone knows who they report to and who decides.
- **Decisions at the right level:** staff decide within their limits and escalate beyond them.
- **Limits follow the Finance SOP:** approval amounts here match the Expense Approval Matrix in Deliverable 9.
- **Separation of duties:** the person who requests, approves, pays, records and reconciles should not be the same person, and nobody approves their own work.
- **Flexibility for a small team:** one person may hold more than one position in the early stage, but the limits and separation rules still apply to each position separately.

2. Organisational Structure

2.1 Organisation chart

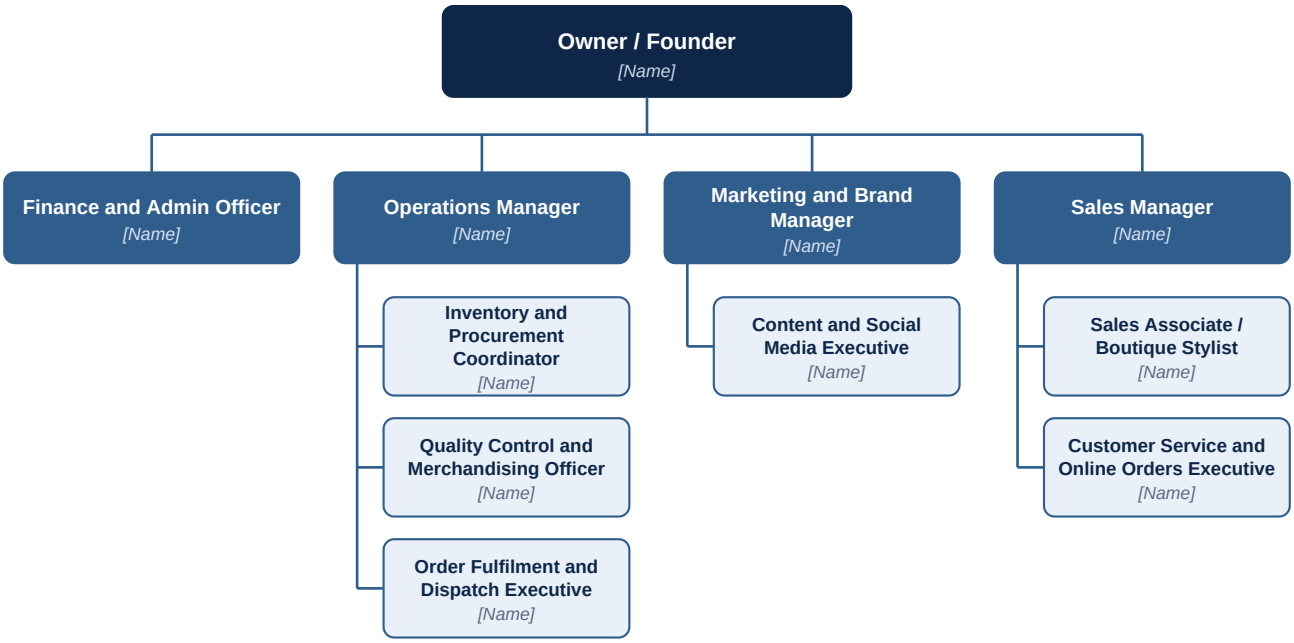

Figure 1: Luxe by Madiha organisation chart (11 positions). Lines show reporting relationships. Insert the name of each position holder in the boxes when positions are filled.

2.2 Positions at a glance

#	Position	Department	Reports to	Direct reports	Suggested start
1	Owner / Founder	Executive	—	Positions 2, 3, 4, 5	Launch
2	Finance and Admin Officer	Finance and Admin	Owner	—	Launch (may be an outsourced accountant)
3	Operations Manager	Operations	Owner	Positions 6, 7, 8	Launch
4	Marketing and Brand Manager	Marketing	Owner	Position 9	Launch
5	Sales Manager	Sales and Customer Experience	Owner	Positions 10, 11	Launch
6	Inventory and Procurement Coordinator	Operations	Operations Manager	—	Launch
7	Quality Control and Merchandising Officer	Operations	Operations Manager	—	Launch or growth

10	Sales Associate / Boutique Stylist	Sales and Customer Experience	Sales Manager	—	Launch
11	Customer Service and Online Orders Executive	Sales and Customer Experience	Sales Manager	—	Launch

> This structure is a recommended starting point. The "Suggested start" column helps the Owner phase hiring; until a position is filled, its duties are covered by the person named in the Owner's written delegation, and approval and separation-of-duty rules still apply.

The Operations Manager, Marketing and Brand Manager and Sales Manager are the **department heads** referred to in the Finance SOP. The Finance and Admin Officer is the finance role referred to in that SOP.

Escalation principles

- Escalate when a decision is above your limit, outside your role, unbudgeted, or involves possible fraud, safety, legal or authenticity risk.
- Escalate to your direct manager first. If the matter involves your manager, go to the Owner. If it involves the Owner, go to the external accountant or legal advisor.
- Time targets: routine matters within 1 working day, serious matters the same day, critical matters immediately.
- No one is penalised for raising a concern in good faith.

If two teams disagree, the managers try to resolve it within 2 working days. If they cannot, the Owner decides and the decision is recorded. Teams never resolve a conflict by bypassing an approval or a control.

7. Role Changes, Onboarding and Performance

- **Combined roles:** when one person holds several positions, they must not approve, pay and reconcile their own work. The Owner reviews such cases monthly as a compensating control.
- **Onboarding:** each new employee receives their position description, this document and the relevant SOPs, signs the acknowledgement, and declares any conflicts of interest on joining.
- **Performance:** goals and measures in Section 3 are reviewed with each employee every quarter, with a formal review at least once a year.
- **Changes:** any change to reporting lines, titles or limits needs the Owner's written approval and an updated version of this document.
- **Exit or role change:** system and bank access is removed on the last day or immediately on role change, confirmed in writing by Finance and IT.

8. Exceptions and Review

- Exceptions to this document need the Owner's written approval stating reason, scope and time period, and are logged.
- Breaches are handled under the Employee Policies (disciplinary procedure).
- This document is reviewed every six months, or earlier when positions are added or removed, the company grows or approval limits change.
