LUXE BY MADIHA

Deliverable 10 Marketing and Brand Guidelines

Guidelines for consistent, ethical brand presentation, marketing activity, lead generation and reputation management

Client	Luxe by Madiha
Prepared by	Aimax Digital — Startup Launch and Business Development Consultancy Team
Document owner	Founder / Owner (Madiha)
Version	1.0
Effective date	[Insert launch date]
Review cycle	Every 6 months
Currency	Pakistani Rupees (PKR). All budgets, targets and thresholds are recommended starting values and should be adjusted to the company's actual scale.

1. Purpose, Scope and Principles

Purpose. This document sets out how Luxe by Madiha presents itself to the public: who it serves, how it speaks and looks, what it may and may not claim, how it markets and generates leads, and how it protects its reputation. It exists so that every post, advertisement, message and customer interaction is consistent, truthful and ethical.

Scope. It applies to the owner, all employees, part-time staff, interns, freelancers, content creators, influencers and agencies who create, approve, publish or respond to anything on behalf of the brand, on any channel (Instagram, Facebook, WhatsApp, website, Google Business Profile, print, packaging and in-store).

Guiding principles

- **Truthful:** Every claim we make can be proven. If we cannot prove it, we do not say it.
- **Consistent:** The same name, logo, colours, tone and promises appear everywhere.
- **Respectful and ethical:** We respect customers, partner brands, competitors, culture and the law.
- **Customer-first:** We ask permission before using a customer's words, photos or contact details.
- **Accountable:** Nothing is published or spent without the right approval, and everything is recorded.
- **Measured:** We track results and adjust, rather than guess.

2. Roles and Responsibilities

Role	Key marketing and brand responsibilities
Owner / Founder (Madiha)	Owns the brand; approves the annual marketing budget, major campaigns, influencer agreements and any sensitive or crisis communication; holds final admin rights on all brand accounts.
Marketing and Brand Manager	Document custodian; prepares the content calendar and campaign briefs; approves routine content; monitors KPIs and reputation; releases logo and brand files.
Content and Social Media Executive	Creates, schedules and publishes approved content; replies to comments and messages within the response standards; maintains the content archive.
Sales Manager and Sales Associates	Provide product and stock facts for content; follow up leads and appointments; collect customer feedback and testimonial consent.
Customer Service and Online Orders Executive	First responder on WhatsApp and online enquiries; logs leads and complaints; escalates according to Section 10.
Finance and Admin Officer	Confirms marketing budget availability, processes ad, agency and influencer payments under the Finance SOP, and reports marketing spend.
Agencies, freelancers, influencers	Follow this document and a written agreement; no publishing without approval; disclose paid or gifted partnerships.

> Position titles follow Deliverable 12 (Organizational Chart and Job Descriptions). In the early stage one person may hold several roles, but nobody may approve their own campaign, expense or payment.

3. Brand Foundation

3.1 Brand overview

Luxe by Madiha is a Karachi-based boutique (established 2024) that curates authentic branded pret from Khaadi, Ethnic and Sapphire under one roof, with personal styling by appointment.

Element	Statement
Brand promise	Authentic branded pret, thoughtfully curated and personally styled.
Tagline (current)	"Where Style Meets Elegance"
Brand values	Authenticity, elegance, careful curation, personal service, integrity.

Element	Statement
Founder message	Elegance is not standing out, but being remembered.

3.2 Target audience

The segments below are working assumptions. They must be tested against real customer data (orders, enquiries, follower insights) and updated at each six-month review.

Segment	Who they are	What they want	Best channels
Core: urban pret shoppers	Women roughly 22–40 in Karachi who already buy Khaadi, Ethnic or Sapphire	Convenience, one place to compare brands, confidence that items are original	Instagram, WhatsApp, boutique
Working professionals	Busy women who want ready-to-wear and quick decisions	Time-saving, styling help, easy ordering and delivery	WhatsApp, Instagram stories
Occasion and gifting buyers	Shoppers for Eid, weddings, family events, gifts	Curated picks, size guidance, timely delivery	Instagram, Facebook, appointments
Customers outside Karachi	Online buyers in other cities	Trust in authenticity, clear shipping terms, honest photos	Website, Instagram, WhatsApp

3.3 Market positioning

Positioning statement. For women who love Pakistan's leading pret labels, Luxe by Madiha is the boutique that brings Khaadi, Ethnic and Sapphire together in one curated, trustworthy place, with personal styling and a guarantee of authenticity.

Competitor type	Examples	How we differ
Official brand stores and websites	Khaadi, Ethnic, Sapphire outlets	Multi-brand convenience, curation and personal styling in one visit
Other multi-brand resellers	Boutiques and online resellers	Verifiable authenticity proof, consistent quality checks, service standards
Social-media sellers and marketplaces	Instagram-based sellers, online marketplaces	Physical boutique, documented sourcing, clear policies

What we are not. We are not a discount outlet, we never sell replicas or "first copies", and we are not an official store of any partner brand unless a written agreement says so (see Section 4.2).

3.4 Brand voice

Voice trait	What it sounds like	What we avoid
Elegant	Polished, calm, well-chosen words. Short sentences.	Slang overload, excessive emojis, ALL CAPS shouting
Warm	Friendly and personal, like a trusted stylist. Use the customer's name.	Cold, robotic or scripted replies
Honest	Clear facts on fabric, size, price, stock and delivery. Admit mistakes quickly.	Hype, fake urgency, "best in Pakistan" claims without proof
Respectful	Courteous to customers, partner brands and competitors. Culturally sensitive.	Criticising other brands or sellers, political or religious controversy

- English is the default for formal channels. Urdu or Roman Urdu is welcome in WhatsApp and comment replies when it matches the customer's language, with the same respectful tone.
- Use at most one or two emojis per message, and only tasteful ones. No emojis in complaints or apologies.
- Always sign off warmly and offer the next step ("Would you like me to reserve it for you?").

3.5 Logo usage

- **Versions:** full logo (primary), compact or icon version (for small spaces such as profile pictures), one-colour and reversed (white) versions.
- **Clear space:** keep empty space around the logo equal to at least the height of its first letter on every side.
- **Minimum size:** about 25 mm wide in print and 120 pixels wide on screen. Below that, use the compact version.
- **Do not:** stretch, rotate, recolour, add shadows or effects, redraw, rearrange its parts, or place it on busy backgrounds or low-contrast colours.
- **Placement:** on photos, place it small in a corner, never over the product or the model's face.
- **Files:** master logo files are stored in the brand folder; only the Marketing and Brand Manager releases them. Agencies and influencers receive files only through that person.
- **Partner brand logos** (Khaadi, Ethnic, Sapphire) are used only to identify products we stock, are never altered, and never appear larger or more prominent than the Luxe by Madiha logo.

3.6 Colour, typography and imagery

Insert the final brand-kit values below so that every designer, agency and team member uses exactly the same colours and fonts.

Role	Used for	HEX / font
Primary colour	Logo, headings, key buttons (about 60% of any design)	[Insert HEX from brand kit]
Secondary colour	Backgrounds, supporting shapes (about 30%)	[Insert HEX from brand kit]
Accent colour	Highlights, price tags, sale badges (about 10%)	[Insert HEX from brand kit]
Light neutral	Page and card backgrounds	[Insert HEX from brand kit]
Dark neutral	Body text	[Insert HEX from brand kit]
Heading font	Titles, campaign headlines	[Insert font name]
Body font	Captions, descriptions, website text	[Insert font name]

- Text must be easy to read: dark text on light backgrounds or light text on dark, never low-contrast combinations.
- **Photography:** clean, natural-looking light, consistent editing style, uncluttered backgrounds, and **true-to-life colour**. Never edit a photo so that the colour, fabric, embroidery, fit or length misrepresents the product.
- Show model height and size worn where possible, and note that colours may vary slightly between screens.
- Packaging, tags, receipts and stationery carry the same logo, colours and tone as digital channels.

4. Truthful Advertising and Claims

4.1 Rules for every claim

1. A claim must be true, specific, current and provable with a document or system record.
2. Claims are listed in the **Claims Register** kept by the Marketing and Brand Manager, with the evidence and the person responsible for keeping it up to date.
3. If the evidence changes (for example, a new supplier), the claim is changed or removed the same day.
4. Nothing is published that exaggerates, hides material conditions, or could reasonably mislead a customer.

Claim we use or may use	Evidence required	Evidence owner
"100% authentic branded pret"	Purchase invoice or receipt from an authorised source for every lot; original brand tags and labels checked at receiving	Inventory and Procurement Coordinator
"Sourced directly from authorised outlets"	Approved supplier list with invoices; claim is removed if any lot comes from elsewhere	Operations Manager
"Free shipping on orders above PKR 10,000"	Current shipping policy stating areas, conditions and dates	Sales Manager

Claim we use or may use	Evidence required	Evidence owner
"New arrival" / "latest drop"	Goods received within the last 30 days (recommended)	Inventory and Procurement Coordinator
"Only a few left" / "limited stock"	Live stock count showing the real remaining quantity	Operations Manager
"X% off" / sale price	The previous price was genuinely charged beforehand (recommended: for at least 14 days); sale dates and conditions stated	Sales Manager
"Best", "number one", "exclusive"	Not used unless independently proven in writing	Marketing and Brand Manager

4.2 Independent reseller disclosure

Khaadi, Ethnic and Sapphire are separate businesses. Luxe by Madiha uses their names only to identify the products it sells. We never suggest an official partnership, sponsorship or endorsement unless a written agreement exists. Suggested wording for the website footer, Instagram bio highlights and printed material:

"Luxe by Madiha is an independent retailer. Brand names and logos belong to their respective owners and are used only to identify the products we sell."

Before launch, the owner should check each partner brand's published policy on resale and advertising and confirm the position with a legal advisor.

4.3 Product information accuracy

- Descriptions state brand, fabric (as printed on the label), pieces included, size, colour, price and care instructions exactly as on the item.
- Availability shown online or in messages must be confirmed against the real stock before a promise is made.
- Prices shown must match the shelf tag, receipt and website. A pricing error is corrected openly and honoured or cancelled with an apology, as decided by the Sales Manager.

4.4 Prohibited practices

- False or misleading statements, fake scarcity or countdowns, or "bait" prices for items not actually in stock.
- Fake, purchased or staff-written reviews or testimonials presented as genuine.
- Disparaging competitors or partner brands, or implying that other sellers are fake without proof.
- Using photos, videos, music, fonts or text that belong to others (including the partner brands' own campaign images) without written permission or a valid licence. Use our own photography by default.
- Using a customer's image, name, chat or review without consent (see Section 5).
- Targeting children, or using sensitive personal information to target adverts.

> Follow the applicable Pakistani consumer-protection and advertising requirements and the advertising policies of each platform. These change over time; confirm current obligations with a qualified legal advisor.

5. Testimonials, Reviews and Customer Content

1. **Genuine only.** Testimonials and reviews must come from real customers with a real order. Each is linked to an order number kept on file.
2. **Written consent first.** Before publishing a customer's name, photo, review or message screenshot, obtain consent using the form in Annex C (a WhatsApp message saved with the record is acceptable if it clearly states what will be used and where).
3. **No alteration.** Words may be shortened for length only if the meaning is unchanged. Hide phone numbers, addresses and order details in screenshots.
4. **Ask everyone equally.** Do not request reviews only from customers who seem happy, and do not discourage honest criticism.

5. **Incentives disclosed.** A discount or gift for leaving a review is allowed only if it is offered whatever the rating, and the review is labelled as incentivised.
6. **Withdrawal.** A customer can withdraw consent at any time. The content is removed within 2 working days.
7. **Own staff.** Staff and family must not post reviews as customers. Staff who share brand posts personally must say they work with the brand.
8. **Criticism stays up.** Genuine negative reviews on our own pages are answered, not deleted. Only spam, abuse, hate speech or defamatory content is removed or reported, and the removal is logged.

Influencers, ambassadors and collaborators

- A written agreement covers deliverables, fees or gifts, usage rights, approval of captions before posting, and the duty to disclose.
- Every paid, gifted or discounted collaboration is labelled clearly (for example "#ad", "#gifted" or the platform's paid-partnership label).
- Influencers may only repeat claims that appear in the Claims Register.
- Fees follow the Finance SOP approval matrix and are paid only after proof of delivery.

6. Social Media Rules

6.1 Channels and their role

Channel	Purpose	Owner
Instagram (@luxebymadiha)	Main showcase: new arrivals, styling, reels, stories	Content and Social Media Executive
Facebook page	Community, local reach, paid advertising	Content and Social Media Executive
WhatsApp Business	Enquiries, order confirmation, styling appointments, opt-in broadcasts	Customer Service and Online Orders Executive
Website	Catalogue, brand story, appointment requests, policies	Marketing and Brand Manager
Google Business Profile	Local discovery, opening hours, customer reviews	Marketing and Brand Manager

6.2 Account governance

- All brand accounts are registered with a business email address, never a staff member's personal one, and the owner always holds admin rights.
- Multi-factor authentication is switched on. Passwords sit in the approved password manager, in line with the IT Governance and Security procedures.
- Admin access is given by role and removed on the employee's last day or on role change.
- Staff never post as the brand from personal accounts.

6.3 Posting rules

1. The Content Executive drafts the post, caption and hashtags and checks every product detail against the stock record.
2. The Marketing and Brand Manager reviews against this document and the Pre-Publication Checklist (Annex D).
3. Campaign content, anything sensitive, and anything involving a partner brand dispute needs the Owner's approval.
4. Approved content is scheduled or posted, and a copy is saved in the content archive.

- Greetings for religious and national occasions are respectful and simple. The brand stays neutral on politics and religious debates.
- Never post customer personal data, private chats, or photos of customers or staff without consent.

- Credit any content created by others and keep the proof of permission.
- Mistakes are corrected quickly. If a post is wrong, edit or remove it and note a correction where customers may have relied on it.

6.4 Staff personal use

Employees must not share confidential business information, customer details, upcoming launches or negative comments about the company, customers, suppliers or partner brands on personal accounts.

7. Content Strategy and Calendar

7.1 Content pillars

Pillar	Share of content	Examples
New arrivals and collections	About 40%	Fresh drops, brand spotlights, in-boutique shots
Styling and outfit ideas	About 25%	Day-to-evening looks, occasion edits, size and fit tips
Behind the boutique	About 15%	Founder's picks, appointments, how we check authenticity
Customer stories	About 10%	Consented reviews and customer photos
Occasions and seasons	About 10%	Eid, wedding season, summer, winter, sales

7.2 Recommended posting rhythm (starting values)

- Instagram: 4–5 feed posts and 2–3 reels per week, with stories most days.
- Facebook: 3 posts per week, mainly shared from Instagram plus local posts.
- WhatsApp broadcast to opted-in customers: 1–2 per week, never more.
- Website banners and featured pieces refreshed at least monthly or at each new drop.

7.3 Annual planning calendar

Plan content and campaigns two to three weeks ahead of each partner brand's own launch schedule. Islamic dates move about 10–11 days earlier each year, so they are confirmed annually.

Period	Typical focus	Planning lead time
January–February	End-of-winter sale, late wedding-season looks	3 weeks
February–May	Spring and summer pret launches	3 weeks
Ramadan and Eid ul Fitr (dates vary)	Iftar and Eid edits, gifting, delivery cut-off dates	4 weeks
Eid ul Adha (dates vary)	Festive pret, last-order dates	3 weeks
14 August	Independence Day edit and greetings	2 weeks
September–October	Autumn and winter collections, wedding-season pret	3 weeks
November	Sales events if approved by the Owner	3 weeks
December	Winter styling, year-end thanks, loyalty offers	3 weeks

7.4 Calendar process

1. The Marketing and Brand Manager prepares next month's calendar by the 25th using the template in Annex B.
2. Operations confirms expected stock arrival dates and the Sales Manager confirms offers.
3. The Owner approves the calendar. Changes after approval are noted on the calendar.
4. The team reviews the calendar every Monday and records what was published, skipped or changed.
5. Photo and video shoots are batched weekly or fortnightly, and files are saved as YYYY-MM-DD_Collection_Item.

8. Advertising and Campaign Planning

8.1 Campaign types

New collection launches, seasonal and occasion campaigns, sales and promotions, referral and loyalty campaigns, and appointment drives.

8.2 Planning procedure

1. **Brief:** complete the Campaign Brief (Annex A) with objective, audience, offer, channels, budget and KPIs.
2. **Stock and margin check:** Operations confirms stock depth; Finance confirms budget and margin impact.
3. **Claims check:** every claim and offer term is checked against the Claims Register (Section 4).
4. **Budget approval:** follows the Finance SOP approval matrix (Section 8.4).
5. **Creative:** copy, photos, videos and landing pages are produced to brand rules.
6. **Approval:** Marketing and Brand Manager, then the Owner for campaigns.
7. **Launch and monitor:** check performance daily during the campaign and fix problems immediately.
8. **Review:** a campaign report is completed within 7 days of the end, with lessons recorded.

When	Milestone	Responsible
21 days before	Campaign brief submitted	Marketing and Brand Manager
14 days before	Creative direction agreed; stock and offer confirmed	Marketing, Sales, Operations
7 days before	Final creative and budget approved	Owner
1 day before	Final claims, price and link check	Marketing and Brand Manager
Launch day	Go live and first-day monitoring	Content and Social Media Executive
7 days after end	Campaign report and lessons learned	Marketing and Brand Manager

8.3 Advertising standards

- Offer terms (start and end date, what is included, exclusions, "while stocks last" only if stock is limited) are clear in the advert itself.
- Paid adverts follow the platform's policies and the rules in Section 4.
- Sponsored and influencer content is labelled.
- Promo codes are unique per campaign so results can be measured.

8.4 Advertising budget and approvals

All marketing spend follows the Expense Approval Matrix in the Finance SOP, and approval is obtained before the commitment is made.

Amount per transaction (PKR)	Approver	Documentation
Up to 5,000	Marketing and Brand Manager	Receipt
5,001 – 25,000	Marketing and Brand Manager + Finance Officer	Purchase request, receipt or invoice
25,001 – 100,000	Owner	Purchase request, invoice, at least 2 quotations
Above 100,000	Owner (written approval)	Purchase request, at least 3 quotations, contract or agreement
Unbudgeted spend (any amount)	Owner	Written justification and source of funds

- Splitting ad top-ups, boosts or fees into smaller parts to avoid an approval level is prohibited and treated as a policy violation.

- Ad accounts belong to the business and are paid from company accounts or cards. Receipts and platform invoices are filed with the transaction.
- Discounts above 10%, and all promotions, need approval and a documented reason, in line with the Finance SOP.

9. Lead Generation Strategy

9.1 Customer journey

Awareness (sees our content) > Interest (follows, saves, visits website) > Enquiry (a lead: WhatsApp, form, call or walk-in) > Purchase or appointment > Repeat purchase and referral.

9.2 Lead sources

Source	How we use it	Owner
Instagram and Facebook	Organic content and paid adverts that lead to WhatsApp or the website	Content and Social Media Executive
WhatsApp Business	Catalogue, quick replies, labels for lead stage, opt-in broadcast list	Customer Service Executive
Website appointment form	Styling session requests by brand; confirmed within 2 working hours	Customer Service Executive
Boutique walk-ins	Invite visitors to share contact details for new-arrival updates, with consent	Sales Associates
Referrals	Refer-a-friend reward approved by the Owner and recorded in the lead sheet	Sales Manager
Google Business Profile	Accurate hours, address, photos; ask all customers for reviews	Marketing and Brand Manager
Collaborations and events	Micro-influencer partnerships, preview evenings, styling events	Marketing and Brand Manager

9.3 Lead handling procedure

1. **Capture:** record every lead in the lead sheet (name, phone, source, brand of interest, occasion, date).
2. **Respond:** reply within 2 working hours during opening hours.
3. **Qualify:** ask about occasion, size, budget range and timing.
4. **Follow up:** day 0, day 2 and day 7. No more than three unsolicited follow-ups, then move to the opt-in list or close the lead.
5. **Record the outcome:** sale, appointment, lost (with reason) or nurture.
6. **Report:** leads, conversions and lost reasons go into the weekly report.

9.4 Customer data and consent

- Collect only the information needed. Tell customers how it will be used.
- Marketing messages are sent only to people who opted in. A "stop" request is honoured within 24 hours.
- Never buy, scrape or borrow contact lists, and never add people to broadcast lists without consent.
- Customer data is stored in access-controlled files, shared only with couriers and payment providers as needed, and handled in line with the IT Governance and Security procedures and applicable Pakistani law.
- The website's Privacy Policy and Terms of Service must be published before paid campaigns collect customer data.

10. Marketing KPIs and Reporting

Targets below are recommended starting values. Review them after the first three months of real data.

KPI	Definition	Starting target	Frequency
Follower growth	Net new followers as % of total	3–5% per month	Monthly
Engagement rate	Likes, comments, saves and shares divided by reach	3–5%	Monthly
Website visitors	Unique visitors to the website	Set baseline, then +10% per quarter	Monthly
Enquiries	WhatsApp, form and call enquiries received	Set baseline, then grow	Weekly
Lead response time	Share of leads answered within 2 working hours	95%	Weekly
Lead-to-sale conversion	Leads that become orders or visits	20% or better	Monthly
Appointment show-up rate	Booked sessions attended	70% or better	Monthly
Cost per lead and customer acquisition cost	Marketing spend divided by leads or new customers	Within budget set per campaign	Monthly
Return on ad spend	Revenue from adverts divided by ad spend	3.0 or better	Per campaign
Average order value	Revenue divided by orders	Rising trend	Monthly
Repeat purchase rate	Customers who buy again within 6 months	25% or better	Quarterly
Average review rating	Google and other public reviews	4.5 or better	Monthly
Response standard compliance	Comments and messages answered within target times	95%	Weekly
Content calendar adherence	Planned posts published on time	90%	Monthly
Claims and policy exceptions	Published items that broke this document	Zero	Monthly

Report	Frequency	Prepared by	Reviewed by
Marketing snapshot (leads, response times, top content)	Weekly	Marketing and Brand Manager	Owner
Marketing report (KPIs, spend vs budget, campaign results)	Monthly	Marketing and Brand Manager	Owner and Finance
Strategy and audience review	Quarterly	Marketing and Brand Manager	Owner

The monthly marketing report feeds the monthly management review described in the Finance SOP (days 8 to 10 of the month-end timeline).

11. Brand Reputation Monitoring and Response

11.1 Monitoring

- **Daily:** comments, direct messages, WhatsApp, Google reviews, tags and mentions.
- **Weekly:** search the brand name and hashtags, look for fake accounts or counterfeit use of our name, and note repeated customer themes.
- **Monthly:** short reputation summary (rating trend, top praise, top complaints, open issues) in the marketing report.
- Use native platform notifications and free alerts for the brand name. Any impersonating account is reported to the platform and the Owner is told.

11.2 Response standards

Situation	First response	Responds	Escalate to
Positive comment or message	Within 24 hours	Content Executive	None
Product, price or stock question	Within 2 working hours	Customer Service Executive	Sales Manager if unsure
Public complaint	Within 4 hours; move details to private message	Customer Service Executive	Marketing and Brand Manager
Order or delivery problem	Same working day	Customer Service Executive	Operations Manager
Allegation of fake or non-authentic product	Immediately escalate; reply within 2 hours	Owner decides the reply	Owner
Legal threat, media enquiry, data breach, safety concern	No staff comment	Owner only	Owner
Abusive or trolling comments	Do not engage; hide or report	Content Executive	Marketing and Brand Manager if repeated

11.3 Response principles

- **Acknowledge** the issue, **apologise** where we are at fault, **act** to fix it, and **take details offline** to private message.
- Never argue in public, never blame the customer, and never reveal a customer's personal or order details publicly.
- Be accurate. If facts are unclear, say we are checking and give a time for the next update.
- Do not delete legitimate criticism. Remove only spam, abuse and defamation, and log it.

11.4 Escalation levels and crisis procedure

Level	Examples	Handled by
1: Routine	Single complaint, query, minor error	Content or Customer Service Executive
2: Elevated	Repeated complaints on the same issue, rising negative comments, supplier problem	Marketing and Brand Manager with Operations Manager
3: Crisis	Authenticity allegation, safety issue, legal or media matter, data breach, viral negative post	Owner

1. **Pause** scheduled posts and adverts that could be affected.
2. **Assess** the facts within 2 hours, using documents such as purchase invoices and order records.
3. **Decide** the response. The Owner approves every Level 3 statement.
4. **Hold** a short, calm statement ready ("We are looking into this and will update by [time].").
5. **Communicate** to the affected customers first, then publicly if needed.

6. **Fix** the cause and record it in the corrective action register (Deliverable 11).
7. **Review** within 7 days: what happened, what we learned, what changes.

12. Records, Compliance and Review

- **Records kept:** approved content archive, Claims Register and evidence, campaign briefs and reports, consent forms, influencer agreements, ad invoices, lead sheet, and the reputation log.
- **Retention:** marketing records at least 3 years; consent forms for as long as the content is used and at least 12 months afterwards; financial records follow the Finance SOP (at least 6 years).
- **Exceptions** to this document need the Owner's written approval stating reason, scope and time period, and are logged.
- **Breaches** are handled under the Employee Policies (disciplinary procedure). Publishing a false claim or fake review is treated as serious misconduct.
- **Review:** every 6 months, or sooner after a crisis, a major platform policy change, a change in partner brands, or a significant campaign problem.

Annex A — Campaign Brief (Template)

Field	Entry
Campaign name and code	
Dates (start / end)	
Objective and KPI target	
Target audience segment	
Offer and conditions	
Products, brands and stock depth	
Channels and content formats	
Claims used (matched to Claims Register)	
Budget (PKR) and budget line	
Quotations attached (number)	
Prepared by / date	
Marketing and Brand Manager approval	
Finance verification (budget confirmed)	
Owner approval (if required)	

Annex B — Monthly Content Calendar (Template)

Date	Channel	Pillar	Format	Message / products	Owner	Approved by	Status

Annex C — Customer Testimonial and Content Consent Form

Field	Entry
Customer name	
Contact (phone / email)	
Order number	
Content to be used (review, photo, video, chat screenshot)	
Where it may appear (Instagram, Facebook, website, print)	
Name shown (full / first name / anonymous)	
Incentive offered (if any) and disclosed?	
Customer signature or saved message reference	
Date	
Collected by	

Statement: I allow Luxe by Madiha to use the content described above in the places listed. The content reflects my own genuine experience. I understand that I may withdraw this permission at any time by contacting Luxe by Madiha, and that the content will then be removed within 2 working days.

Annex D — Pre-Publication Checklist and Reply Templates

Pre-publication checklist

[ ] Every claim, price, offer and date matches the Claims Register and the live stock record
[ ] Photos are our own or licensed, and colours are true to the product
[ ] Logo, colours and fonts follow Section 3; partner logos are not more prominent than ours
[ ] Independent-retailer wording is present where required
[ ] Sponsored or gifted content is labelled
[ ] Customer content has recorded consent; personal details are hidden
[ ] Tone is respectful; no unsupported comparison with other sellers or brands
[ ] Links, tags and contact details work
[ ] Approved by the right person and saved to the archive

Reply templates (adapt to each customer)

Situation	Suggested reply
Product enquiry	Thank you for your message! The piece is available in sizes [..]. Would you like me to reserve it for you?
Public complaint	We are sorry this was not the experience we want for you. We have sent you a private message so we can fix this today.
Delivery delay	Thank you for your patience. Your parcel is delayed at the courier. The new expected date is [..]. We are following up and will update you by [time].
Authenticity question	Thank you for asking. Every piece we sell is sourced from authorised outlets and we keep our purchase records. I am happy to arrange for the owner to speak with you directly.

Annex E — Document Control and Approval

Version	Date	Author	Approved by	Description of change
1.0	[Date]	Aimax Digital	Madiha (Owner)	Initial release

Acknowledgement: All employees and contractors who create or publish marketing content must sign to confirm they have read and understood this document.
