DELIVERABLE 5

SALES TARGETS & PERFORMANCE PLAN

Prepared by Aimax Digital

For Luxe by Madiha — Clothing Brand

Planning period	12 months from approval
Currency	PKR (Pakistani Rupees)
Document status	Initial planning framework — targets to be validated against actual results
Version	1.1 — Blue & White Edition

DESIGN STANDARD: White backgrounds with blue headings, table headers, borders, and accents only.

1. Purpose and Objectives

This plan gives Luxe by Madiha a practical framework for setting sales goals, assigning responsibilities, managing leads, tracking conversion, reviewing performance, and improving results. Targets below are **illustrative starting assumptions**, not guaranteed outcomes; management should revise them after reviewing product pricing, margins, stock capacity, marketing budget, and early sales data.

Objectives

• Establish monthly and quarterly revenue and order targets.
• Clarify responsibilities for sales, customer service, marketing, and fulfilment.
• Create a consistent lead follow-up and CRM process.
• Monitor sales performance using a simple weekly and monthly reporting rhythm.
• Use documented coaching and corrective action when results fall below target.

2. Planning Assumptions

Metric	Initial assumption	How to use it
Average order value (AOV)	PKR 6,000	Replace with the actual average after sufficient orders.
Lead-to-order conversion	20%	A planning assumption; calculate from qualified leads and confirmed orders.
Annual orders	900	Sum of the monthly order targets below.
Annual gross sales target	PKR 5,400,000	Orders × assumed AOV; before discounts, cancellations, returns, delivery costs, and other expenses.
Annual qualified leads	4,500	Based on 900 orders at a 20% lead-to-order conversion assumption.

Important: Gross sales are not profit. Track product cost, packaging, delivery subsidies, payment fees, advertising, returns, and operating expenses separately.

3. Monthly and Quarterly Sales Targets

Month	Order target	Gross sales target (PKR)	Qualified leads target
Month 1	20	120,000	100
Month 2	30	180,000	150
Month 3	40	240,000	200
Month 4	50	300,000	250
Month 5	60	360,000	300
Month 6	70	420,000	350
Month 7	80	480,000	400
Month 8	90	540,000	450
Month 9	100	600,000	500
Month 10	110	660,000	550
Month 11	120	720,000	600
Month 12	130	780,000	650
TOTAL	900	5,400,000	4,500

Quarter	Orders	Gross sales target (PKR)	Qualified leads
Q1 (Months 1–3)	90	540,000	450
Q2 (Months 4–6)	180	1,080,000	900
Q3 (Months 7–9)	270	1,620,000	1,350
Q4 (Months 10–12)	360	2,160,000	1,800
Annual total	900	5,400,000	4,500

4. Roles and Responsibilities

Role	Key responsibilities	Review evidence
Owner / Founder	Approve targets, pricing, promotions, stock commitments, budgets, and customer policies; review results and approve corrective action.	Monthly scorecard, margin report, stock availability, customer feedback.
Sales & Customer Support (if assigned)	Respond to enquiries, qualify leads, recommend products/sizes, confirm orders, follow up, update CRM, and escalate complaints.	Response time, follow-up completion, conversion, order accuracy.
Aimax Digital	Plan and execute agreed marketing activity, monitor campaign leads and performance, share reporting, and recommend tests and improvements.	Qualified leads, cost per qualified lead, campaign conversion, reporting cadence.
Fulfilment / Operations	Confirm inventory, pack accurately, dispatch on time, update tracking, manage exchanges/returns, and report stock risks.	Dispatch time, order accuracy, cancellations, return reasons.

5. Lead Generation and Customer Acquisition

Use a balanced mix of channels suited to the brand's budget and audience. Choose channels based on measurable results rather than reach alone.

• Organic social: product reels, styling ideas, fabric/detail close-ups, size guidance, customer questions, and new-arrival posts.
• Paid campaigns: test a small number of creatives and audiences; track spend, qualified enquiries, orders, and acquisition cost.
• WhatsApp / direct messages: answer product questions and guide interested customers to a clear order process.
• Repeat customers: request feedback, share relevant new arrivals, and communicate offers responsibly.
• Referrals and collaborations: use trackable codes or notes to understand which activity produces sales.

6. Sales Funnel and Follow-up Standards

Stage	Required action	Target standard
New enquiry	Record source, date, requested item, size/colour, budget if shared, and contact channel.	Log on the same business day.
Qualified lead	Confirm product fit, availability, price, delivery location, and purchase intent.	Respond promptly during published business hours.
Product recommendation	Share accurate product details, sizing, fabric, price, delivery and exchange information.	Provide clear, helpful answers; do not overpromise.
Follow-up 1	Check whether the customer needs more information.	Within 24 hours, where appropriate.
Follow-up 2	Address remaining concerns and confirm stock/availability.	Around day 3, if the customer has not declined.
Final follow-up	Send one courteous close-out message.	Around day 7; stop if the customer opts out or declines.
Order confirmed	Verify item, size, colour, quantity, address, payment/COD details, and expected dispatch.	Record confirmation before fulfilment.
Post-purchase	Share dispatch updates and invite feedback after delivery.	After fulfilment; log issue or feedback.

Do not spam customers. Respect opt-outs, privacy, business hours, and the customer's preferred contact channel.

7. CRM and Order Tracking Procedure

Maintain one shared, access-controlled spreadsheet or CRM. Each lead should have a unique record and a clear next action. Suggested fields:

Lead ID | Date received | Customer name/contact (minimum necessary) | Source/campaign | Product interest | Size/colour | Lead stage | Last contact | Next follow-up date | Quoted value | Order ID | Order value | Outcome/loss reason | Owner.

Operating rules

• Update the record immediately after meaningful contact or a status change.
• Use consistent stages: New, Contacted, Qualified, Product Shared, Follow-up, Order Confirmed, Fulfilled, Lost, Repeat Customer.
• Record loss reasons neutrally (e.g., price, size unavailable, delivery timing, no response).
• Limit access to staff who need the information; do not store payment card details or unnecessary sensitive information.
• Review overdue follow-ups at the start of each business day.

8. Sales Reporting Template

Daily or weekly activity report

Date / Week	New leads	Qualified leads	Orders	Gross sales (PKR)	Ad spend (PKR)	Open follow-ups	Key issue / action
[Enter]	[ ]	[ ]	[ ]	[ ]	[ ]	[ ]	[Enter]
[Enter]	[ ]	[ ]	[ ]	[ ]	[ ]	[ ]	[Enter]
[Enter]	[ ]	[ ]	[ ]	[ ]	[ ]	[ ]	[Enter]

Monthly management summary

Metric	Target	Actual	Variance / notes
Gross sales	PKR [ ]	PKR [ ]	[ ]
Confirmed orders	[ ]	[ ]	[ ]
Qualified leads	[ ]	[ ]	[ ]
Lead-to-order conversion	[ ]%	[ ]%	[ ]
Average order value	PKR [ ]	PKR [ ]	[ ]
Marketing spend	PKR [ ]	PKR [ ]	[ ]
Customer acquisition cost	PKR [ ]	PKR [ ]	[ ]
Cancellation / return rate	[ ]%	[ ]%	[ ]
Repeat customer orders	[ ]	[ ]	[ ]

9. Key Performance Indicators (KPIs)

KPI	Calculation / definition	Review frequency
Revenue attainment	Actual gross sales ÷ sales target × 100	Weekly / monthly
Order attainment	Confirmed orders ÷ order target × 100	Weekly / monthly
Lead-to-order conversion	Orders attributed to leads ÷ qualified leads × 100	Monthly
Average order value (AOV)	Gross sales ÷ orders (define treatment of cancellations/returns consistently)	Monthly
Cost per qualified lead (CPQL)	Marketing spend ÷ qualified leads	Per campaign / monthly
Customer acquisition cost (CAC)	Acquisition-related marketing and sales costs ÷ new customers acquired	Monthly / quarterly
Response time	Time between customer enquiry and first meaningful response	Weekly
Cancellation / return rate	Cancelled or returned orders ÷ relevant total orders × 100	Monthly
Repeat purchase rate	Customers who place another order within defined period ÷ eligible customers × 100	Quarterly
Fulfilment performance	Orders dispatched on time and accurately ÷ orders fulfilled × 100	Weekly / monthly

Define each metric consistently before comparing months. For profitability decisions, use net sales and contribution margin alongside gross sales.

10. Performance Reviews

• Weekly: check lead volume, response delays, follow-up completion, order issues, and immediate blockers.
• Monthly: compare target vs actual, conversion, AOV, spend, cancellations, customer feedback, and stock availability.
• Quarterly: review channel performance, customer segments, pricing, product mix, margins, and the next quarter's targets.
• Keep a written record of decisions, owners, due dates, and results.

11. Procedure When Targets Are Missed

A missed target should trigger a fact-based review and support plan, not an automatic assumption of poor effort.

1. Confirm the data: verify orders, cancellations, lead attribution, reporting periods, and stock availability.
2. Diagnose the gap: identify whether the issue is lead volume, lead quality, response/follow-up, conversion, AOV, stock, fulfilment, pricing, or budget.
3. Agree on actions: choose 2–4 specific changes with an owner and deadline.
4. Provide support: clarify priorities, training, tools, creative assets, inventory, or approval delays that need resolving.
5. Review after 2 weeks and again after 30 days; continue, revise, or close the plan based on evidence.

12. 30-Day Improvement Plan Template

Area	Observed gap / evidence	Action	Owner	Due date	Success measure
Lead generation	[Enter]	[Enter]	[Enter]	[Enter]	[Enter]
Response / follow-up	[Enter]	[Enter]	[Enter]	[Enter]	[Enter]
Conversion / product fit	[Enter]	[Enter]	[Enter]	[Enter]	[Enter]
Operations / stock	[Enter]	[Enter]	[Enter]	[Enter]	[Enter]

13. First 90-Day Implementation Roadmap

Period	Priority actions	Expected output
Days 1–30	Validate pricing and margins; confirm target customer and product range; set up CRM and reporting; define response and fulfilment standards; begin baseline tracking.	Approved baseline targets, CRM, weekly dashboard, agreed owners.
Days 31–60	Review first results; test a small number of content/campaign variations; improve product information and size guidance; identify common objections.	Early channel comparison, improved enquiry handling, documented learnings.
Days 61–90	Shift effort toward channels producing qualified leads and profitable orders; assess repeat purchase and customer feedback; reset next-quarter targets.	Quarter review, revised forecast, prioritized growth plan.

14. Governance and Approval

Management should approve the target assumptions and any budgets before implementation. Review this plan quarterly or when material changes occur in product pricing, inventory, fulfilment capacity, marketing spend, or customer demand.

Approval	Name / signature	Date
Luxe by Madiha — Owner / Authorized Representative	[Enter]	[Enter]
Aimax Digital — Authorized Representative	[Enter]	[Enter]

Document note: This plan is a management template. Targets and KPI definitions should be reviewed against actual business economics and operational capacity before being treated as final commitments.
